09/2019 – 09/2023
Egypt, Menoufia

Faculty Of Computers and Information, Menoufia University
Computer Science
GPA:3.36

👛 PROFESSIONAL EXPERIENCE

IT System Administrator (Moodle & Office 365) & Front-End Engineer in Menofia National University

- designing and developing modern, responsive, and multilingual web interfaces.
- Administered and maintained the **Moodle LMS** for online examinations, including test creation, system monitoring, and user support (faculty and students).
- Managed user accounts, roles, and permissions within **Moodle** (students, faculty, and administrators).
- Provided technical support to resolve login issues, exam upload errors, and other system-related incidents.
- Performed **backup and restore** operations for Moodle databases and ensured system readiness before exams.
- Managed **Microsoft Office 365 Admin Center**, including account provisioning, license assignment, and Exchange/Outlook configuration.

SOFT SKILLS

HTML, HTML5

CSS , CSS3

Bootstrap Css

Tailwind Css

Material Ui

JavaScript

React Js

Next.js

Git & GitHub

- JSX
- Components
- Props & State
- Conditional Rendering
- Lists & Keys
- Hooks (useState, useEffect, useRef, useContext, useMemo, useCallback)
- Context API
- React Router
- Redux / Redux Toolkit
- Formik
- Axios
- Vite

Skills For Ui Ux

- Prototyping - Sketch -
- Wireframe - User Flow
- User Research - Empathy
- Map - SWOT analysis
- Problem Statement -
- Stakeholder Interview
- Competitive Analysis -
- Information Architecture
- User Persona - Priority
- Matrix - Card Sorting
- Usability Test/ - User Test

Basic of Nodejs

Basic Of Linux

- File System Hierarchy: /home, /etc, /var, /usr, /bin, etc.
- Navigation: ls, cd, pwd
- File operations: cp, mv, rm, mkdir, touch
- Viewing files: cat, more, less, head, tail
- Searching: find, grep

PROJECTS

E-commerce Web Application

- Technologies: React.js, React Router, Context API, Axios, Tailwind CSS
- Description: Built a fully functional e-commerce website that allows users to browse products, add them to cart, and complete the checkout process with real-time updates and a responsive UI.

University Website

- Description : Developed a fully responsive and multilingual university website using Next.js and Tailwind CSS. Built dynamic pages for faculties, departments, and academic programs using dynamic data and structured content. Implemented reusable UI components, mega menus, timelines, and AR/EN localization with i18next.

MNU Sustainability Website [↗](#)

- Developed a university sustainability website using React and Tailwind CSS, featuring interactive navigation, topic-specific pages, sustainability units and downloadable reports. Built reusable components and ensured a responsive, user-friendly interface.
